## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,12,14 are rejected under 35 USC 102(b) as being fully met by Allured et al.

Allured discloses an electronic sensing system which comprises a guitar converter circuit 79, 83 (Col. 7) and guitar formatting circuit 42 (Col. 9) for converting to a MIDI signal.

Claims 3-11,13,15-21 are objected to as being dependent on a rejected claim, but would be allowable if amended in independent form incorporating the limitations of the parent claim.

Murata et al, Schmidt et al, Eagen are further cited to show related teachings in the art.
